

# TRAUMA SEMINAR 2016 with MICHAL YAKIR

Homeopathy Seminar 13. August 2016

Seminar language is English, there will be no simultaneous German translation available.

Seminar Location: 'Pfarrstadel', Am Kreuzberg 3, 82234 Weßling (close to Munich), Germany

The immediate, acute homeopathic treatment is the most important first-line treatment following life-threatening situations. Severe, acute trauma can shake the patient out of his constitutional states, and this situation is calling for acute, trauma remedies.

In our time, when people are being torn from their houses, uprooted, when people are affected from terrorist acts and at risk of attacks and violence, when accidents are abundant and when sudden fear is everywhere - that is where we intervene so easily with acute homeopathy.

In this field Michal Yakir is experienced from daily homeopathic praxis and working with emergency care in refugees camp during war.

Dr. Michal Yakir PhD, RCHom is a board member of the Israeli Association for Classical Homeopathy (IACH) and teaches homeopathy at the Campus Broshim Homeopathy School in Tel Aviv, Israel, as well as international Lecturer.

Working as a Homeopath over 20 years and through her unique and deep understanding of the plant kingdom Michal Yakir developed over many years 'The Homeopathic Plants Table'. The evolutionary stages of development of plants correlate with the developmental stages of human beings. The Plant Table shows the evolvement and maturation of the 'Ego' – its journey from birth to old age and the development from a primary stage of unification and unity towards a more advanced stage of individuality.

Medical Instructor: Dr. Joachim Siebenwirth

Certification by DZVhÄ Germany regarding homeopathy diploma and as well CME points for physicians are requested. Naturopaths can assert UE points.
